

### C1: Landing on login page for the first time

Type	Priority	Estimate	References
Other	Medium	None	None

## Steps

- |   |                                     |   |
|---|-------------------------------------|---|
| 1 | Go to NewsApp                       | User should land on login page  |
| 2 | Observe right section of login page | User should view login screen with user name and password entries and login button is displayed |
| 3 | Reload page                         | User should view the same results as in step 2, beside loading new image on the left side       |
